

# Biomass North Development Centre

FOR IMMEDIATE RELEASE

July 6, 2018

## **Biomass North Forum 2018 will serve as a cross-country checkup on the Canadian bioeconomy**

- EVENT:** **Biomass North Forum 2018**  
*Mapping Canada's Bioeconomy: Drivers, Roadblocks and Bridges*
- DATE:** October 16-18, 2018
- LOCATION:** Valhalla Inn - Thunder Bay, Ontario
- CONTACT:** Francis Gallo, Project Director  
[bndc2018@biomassnorth.org](mailto:bndc2018@biomassnorth.org)  
(705)206-7687
- WEBSITE:** [bndc2018.biomassnorth.org](http://bndc2018.biomassnorth.org)

The 3rd annual **Biomass North Forum** is once again taking place on the shores of beautiful Lake Superior in Thunder Bay, Ontario. With this year's theme of *Mapping Canada's Bioeconomy: Drivers, Roadblocks and Bridges*, #BNDC2018 will serve as a cross-country checkup to showcase how government, industry, academia and communities throughout the country are navigating towards a sustainable bioeconomy future. Join us in discovering how growth in the sector will help Canada transition to a low-carbon economy, and why a competitive national bioeconomy is critical to the success of *the Pan-Canadian Framework on Clean Growth and Climate Change*.

Participants will hear from leading voices in the sector on key regional and national themes, network with future partners and customers, and build the collaborations vital to the success of their projects. In addition to our expert panels, pre-conference workshops and industry tours, a trade show and exhibition will demonstrate technologies and services in support of the sector, and our 3rd annual Awards Gala will celebrate the successes of leaders and projects in the Canadian bioeconomy.

**Join us for this high-impact conference!** For more information on #BNDC2018 please visit our website or contact us today.

### **ABOUT US:**

The Biomass North Development Centre supports the development of a robust Canadian bioeconomy. As a member-based sector association, Biomass North builds strategic alliances between all participants of the value chain - from small municipalities to large industry and all points in between. By performing cutting edge market and technical research, through knowledge transfer and implementing best practices, and by driving innovation in new products and business models, Biomass North aspires to make and Canada a global leader in the emerging bioeconomy.
